

YUKON ENERGY CORPORATION

Director of Dam Safety-Whitehorse

Position # 95-32

The Opportunity: Director, Dam Safety

Permanent, Full-Time position, based out of Whitehorse, Yukon.

Are you a dam safety leader ready to make a real impact? Join Yukon Energy in Whitehorse as Director of Dam Safety, leading our program and ensuring the safe, reliable operation of critical infrastructure across the territory.

What is in it for you:

- Competitive Pay with annual cost of living increase
- Northern Allowance: \$7,000 + 5% Base Pay added to Base Salary
- Comprehensive Benefit Package that begins the first day of employment
- 160 hours of vacation leave, 160 hours of sick leave, 40 hours of special leave, 40 hours of personal leave
- Travel Allowances for employee and their spouse and dependent(s)
- Annual Wellness Subsidy
- Cell Phone Subsidy
- RRSP Match begins first day of employment
- Relocation Assistance
- Training and Development opportunities
- Opportunity to be a part of something greater and help the Yukon

What will you do: As the Director of Dam Safety, you will:

- Lead the development, implementation, and continuous improvement of Yukon Energy's Dam Safety Management System (DSMS), ensuring safe design, construction, operation, and monitoring of all dam assets.
- Provide strategic leadership and risk-based decision-making across the full asset lifecycle, supporting long-term asset management, capital planning, and public safety.
- Act as the organization's primary authority on dam safety, ensuring compliance with Canadian Dam Association guidelines and regulatory requirements while advising executive leadership and engaging with regulators and stakeholders.

What you need to succeed:

- Bachelor's degree in Civil Engineering (or related discipline) and registration as a Professional Engineer (P.Eng.) in Canada, with the ability to obtain registration in Yukon.
- 10+ years of progressive engineering experience, including significant experience in dam engineering or dam safety—ideally within a hydroelectric or owner-operator environment.
- Strong technical expertise across dam safety disciplines (e.g., structural, geotechnical, hydrology, risk assessment) and deep knowledge of CDA guidelines and dam safety frameworks.
- Proven experience leading dam safety programs, regulatory engagement, inspections, and compliance activities.
- Experience supporting dam-related capital projects and integrating risk-based decision-making into asset management and planning.

YUKON ENERGY CORPORATION
Director of Dam Safety-Whitehorse
Position # 95-32

- Demonstrated leadership experience, with the ability to guide teams, influence decisions, and collaborate across technical and executive stakeholders.
- Strong communication skills, with experience preparing reports and engaging with senior leadership and regulators.
- Valid Class 5 driver's license and ability to travel to remote sites as required.

Who we are: Yukon Energy is the primary generator and transmitter of electrical energy in the Yukon territory, operating within the Traditional Territories of Yukon First Nations. We take pride in our commitment to sustainability and collaboration with Indigenous communities across all our operations.

Yukon Energy values diversity in the workplace. We strive to achieve a skilled workforce that is representative of the population we serve, and we are committed to the employment and professional development of Yukon First Nations citizens. First Nations candidates are encouraged to self-declare.
