

YUKON ENERGY CORPORATION

Electrical Technologist-Protection & Control

Position # 88-09

The Opportunity: Electrical Technologist-Protection & Control

Permanent, Full-Time unit position, based out of Whitehorse, Yukon.

Are you a skilled Electrical Technologist looking for a permanent opportunity to make a real impact in one of Canada's most stunning and remote regions? Yukon Energy is seeking talented individuals to join our team in Whitehorse, Yukon—where your career and adventure go hand in hand!

Who we are: Yukon Energy is the primary generator and transmitter of electrical energy in the Yukon territory, operating within the Traditional Territories of Yukon First Nations. We take pride in our commitment to sustainability and collaboration with Indigenous communities across all our operations.

What will you do: As a key member of the Electrical Maintenance team, you will:

- Perform technical maintenance, installations, and design work on electrical systems.
- Assist in the management of capital and O&M projects, including protection, control, and other electrical initiatives.
- Focus on installing new equipment and rebuilding existing assets to ensure reliability and efficiency.
- Carry out and document all work in line with the Canadian Electrical Code and Yukon Energy's policies and procedures.

What you need to succeed:

- A two-year diploma in Electrical Engineering Technology from an accredited post-secondary educational institution.
- Journeyman Electrician or Power System Electrician certification would be an asset.
- Proven project management experience.
- Minimum of three years' experience testing and maintaining protective relays.
- Proficient in Windows based computer applications as well as manufacturing specific software, maintenance programs and electrical design software.
- Ability to read and work off blueprints as well as interpret drawings, diagrams, and specifications on a variety of types of electrical and electronic equipment.
- Experience with high voltage test equipment.
- Demonstrated commitment to preventive/predictive maintenance programs.
- Team player with the ability to work with minimal supervision.
- Strong client service orientation with good interpersonal skills.
- A proven track record and commitment to safe procedures and encouraging a safe work environment.
- Strong troubleshooting skills.
- A valid class-5 driver's license and First Aid certificate as well as certification in WHIMS, TDG, and rigging and hoisting.

Compensation: Level 9: \$49.94/hr-\$59.65/hr PLUS Northern Allowance.

YUKON ENERGY CORPORATION
