Position # 97-02

The Opportunity: Safety Advisor

20 Month term, full-time and based in Whitehorse, Yukon.

Compensation: Level 9-\$53.50/hr-63.90/hr PLUS Northern Allowance

Are you a Health & Safety professional looking for an opportunity to support safe work practices and strengthen safety culture across Yukon's electrical utility operations? Yukon Energy is seeking a Health & Safety professional to join our team in Whitehorse, Yukon, providing guidance and support to employees, supervisors, managers and contractors while contributing to the ongoing improvement of our Health & Safety Management System.

What will you do: As a member of the Health & Safety team, you will:

- Conduct workplace safety inspections, audits, orientations and hazard assessments to support safe work practices across Yukon Energy's facilities and operations.
- Investigate workplace incidents, prepare reports and recommend corrective actions to reduce risks and prevent future occurrences.
- Develop, review and maintain safe work procedures, safety programs and documentation in accordance with applicable legislation, regulations and industry standards.
- Provide guidance, coaching and training to employees, supervisors, managers and contractors to promote compliance with safety requirements and strengthen workplace safety practices.
- Support the maintenance and continuous improvement of Yukon Energy's Health & Safety Management System, including monitoring safety performance, identifying trends and recommending improvements.

What you need to succeed:

- A post-secondary diploma or certificate in Occupational Health and Safety and/or journey person certification in an applicable utility trade, with relevant utility experience.
- A minimum of five (5) years of experience in an electrical utility or equivalent industrial environment.
- An Occupational Health and Safety Certificate and a professional designation such as CRSP, CRST or CHSC, or willingness to obtain these qualifications within three (3) years.
- Knowledge of occupational health and safety legislation, regulations and industry standards, including Yukon safety requirements and COR certification processes.
- COR Internal Auditor status or the ability to obtain certification within one (1) year.
- Experience conducting workplace inspections, hazard assessments and incident investigations, including developing safe work procedures and recommending corrective actions.
- Knowledge of Health & Safety Management Systems, safety auditing, documentation practices and continuous improvement processes.
- Strong communication, technical writing and interpersonal skills, with the ability to provide training, influence safe work practices and collaborate effectively with employees, management and contractors.
