

LNG Supply To the Yukon

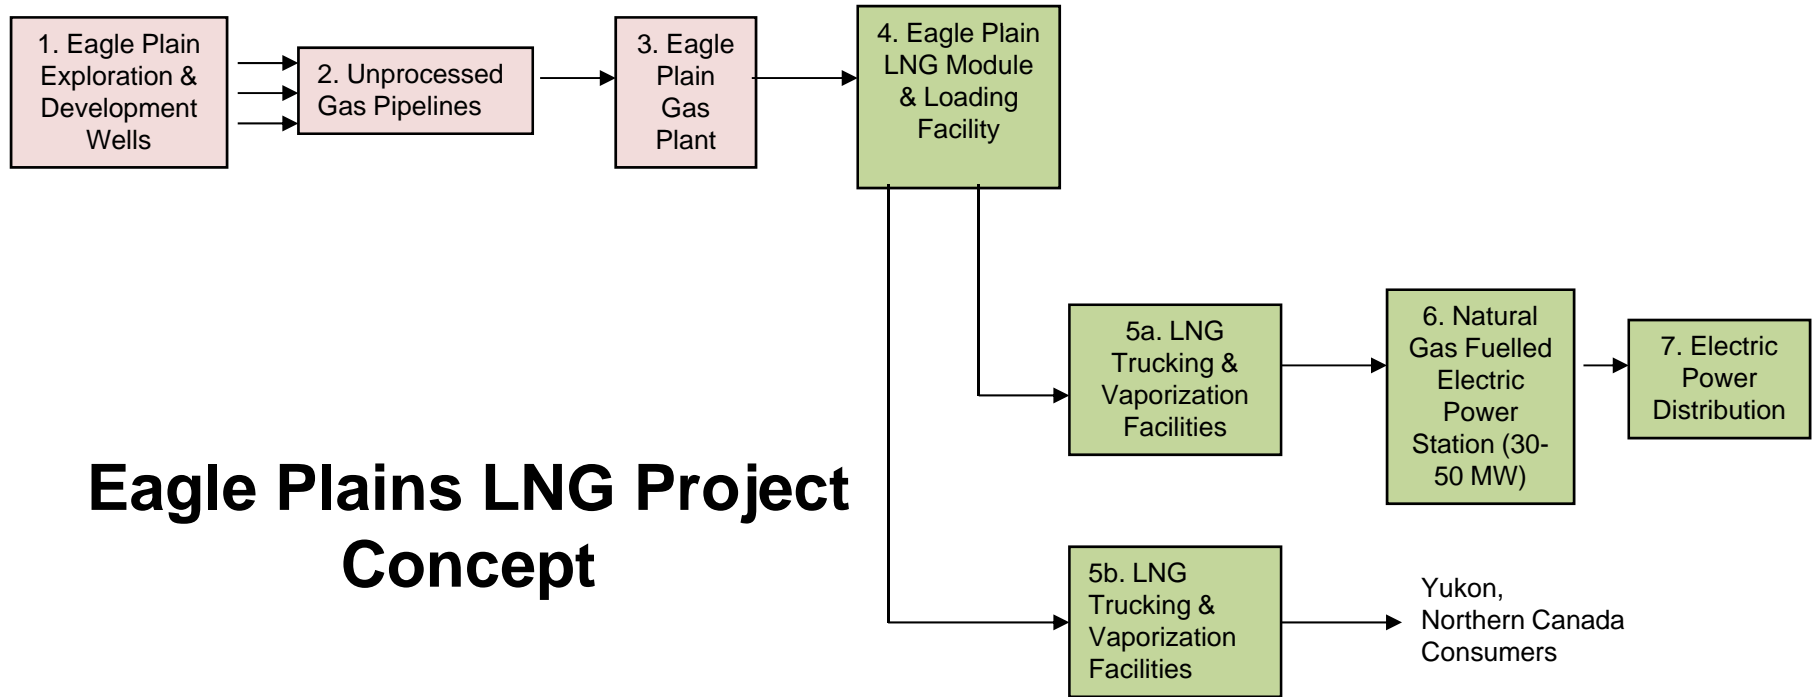

A Local First Nation Initiative

# History

## Eagle Plains LNG Project Concept

 Basic business plan

# Results

- Feasible at 10+ MW
- Average Diesel Price 32 cents/kw hr
- LNG delivered price is 16+- cents/kw hr
- Potential existing market is 20-50 MW
- Market growth potential exceeds 300 MW
- Transportation sector may prove to be a significant future market
- Interim LNG supply solutions are available until Yukon gas is on-line. (if required)

**Small Skid Mounted  
Liquefaction Plant**

LNG Tank Truck

LNG Storage Tanks

**Natural Gas Fueled  
Power Plant**

# Next Steps

- Clearly establish both short and long term LNG requirements from end users
- Negotiate commitments from gas suppliers and gas purchasers

**Thank You**
