1.0 Purpose

- 1.1 Yukon Energy is committed to maintaining a workplace in which safety for the public and for employees is part of everything we do and is as important as anything we do.
- 1.2 This policy applies to all Yukon Energy assets and facilities.

2.0 Policy

- 2.1 Yukon Energy will comply with all applicable legal requirements and follow good utility work practices to protect the public.
- 2.2 A risk-based approach to incorporate public safety consideration into business practices and decisions will be used.
- 2.3 Public awareness of safety issues related to Yukon Energy’s facilities will be promoted.
- 2.4 Stakeholder and community initiatives that address public safety issues will be encouraged and supported.

3.0 Roles and Responsibilities

- 3.1 Yukon Energy Corporation will:
 - Identify the potential for hazards that the public may be exposed to and where possible, eliminate the hazard. Where the hazard cannot be eliminated, incorporate controls to reduce the risk of exposure to the hazard.
 - Conduct regular reviews of procedures that affect safety of the public, as well as in the response to particular incidents or emergency situations.
 - Provide resources for public safety programs.
 - Participate in public safety campaigns and initiatives.
 - Maintain safe work procedures related to public safety.
 - Maintain the Public Safety Policy and provide support for public safety campaigns and initiatives for Yukon Energy.
 - Take public safety into consideration when developing and maintaining emergency response plans.
