1.0 Purpose

- 1.1 Yukon Energy is committed to maintaining a workplace in which safety for the public is part of everything we do and is as important as anything we do.
- 1.2 This policy applies to all Yukon Energy assets and facilities and activities.

2.0 Policy

- 2.1 Yukon Energy will comply with all applicable legal requirements and follow good utility work practices to protect the public.
- 2.2 Public safety will be included in the risk assessment of all business practices and decisions.
- 2.3 Yukon Energy will promote public awareness of safety issues related to its facilities.
- 2.4 Stakeholder and community initiatives that address public safety issues will be encouraged and supported.

3.0 Roles and Responsibilities

- 3.1 Yukon Energy will:
 - Identify the potential for hazards that the public may be exposed to and where possible, eliminate the hazard. Where the hazard cannot be eliminated, Yukon Energy will incorporate controls to reduce the risk of exposure to the hazard.
 - Conduct regular reviews of procedures that affect safety of the public, as well as in response to particular incidents or emergency situations.
 - Provide resources for public safety programs.
 - Participate in public safety campaigns and initiatives.
 - Maintain safe work procedures related to public safety.
 - Maintain the Public Safety Policy and provide support for public safety campaigns and initiatives for Yukon Energy.
 - Take public safety into consideration when developing and maintaining emergency response plans.
